Emergency Preparedness

1. \_\_\_\_\_ Hospital preparedness concerns for a disaster include:
  - A. Determination of adequate staffing capabilities
  - B. The willingness of staff to respond to a disaster
  - C. Health care workers may be among the victims
  - D. All of the above
  
2. \_\_\_\_\_ Natural disasters include:
  - A. Volcanic eruption
  - B. Structural collapses
  - C. Power outage
  - D. All the above
  
3. \_\_\_\_\_ Health impacts associated with the sudden crowding together of large numbers of survivors:
  - A. Will require planning for both therapeutic and preventive interventions
  - B. Often having inadequate access to safe water
  - C. Often having inadequate access to sanitation facilities
  - D. All the above
  
4. \_\_\_\_\_ Dissemination of biological warfare agents may occur by:
  - A. Aerosol sprays
  - B. Explosives
  - C. Food or water contamination
  - D. All the above
  
5. \_\_\_\_\_ Protective measures against biological warfare agents include all except:
  - A. Showering with sodium hypochlorite
  - B. Removal of clothing
  - C. High-efficiency particulate air (HEPA) filter masks
  - D. military gas mask
  
6. \_\_\_\_\_ In humans, common symptoms of influenza infection are:
  - A. Fever and severe headache
  - B. Sore throat, muscle pains, and coughing
  - C. Weakness and fatigue
  - D. All the above

Emergency Preparedness

7. \_\_\_\_\_ Strategies to slow down a flu pandemic include:
- A. Vaccines
  - B. Anti-viral drugs
  - C. A & B
  - D. None of the above
8. \_\_\_\_\_ WHO recommends
- A. Health-care workers wear N95 masks
  - B. Patients wear surgical masks (which may prevent respiratory secretions from becoming airborne)
  - C. A & B
  - B. None of the above
9. \_\_\_\_\_ To minimize infection risk before and during a disaster:
- A. Standard precautions should be maintained at all times
  - B. Good hand hygiene should be practiced before and after direct contact with patients and contact with the environment
  - C. Proper decontamination/sterilization of procedural instruments
  - D. All the above
10. \_\_\_\_\_ Factors of respiratory concern during a disaster:
- A. Positive-pressure ventilation is not a factor
  - B. Compressed gas cylinders always offer support for extended periods of therapy
  - C. No manual resuscitation will be needed
  - D. Increased consumption of oxygen beyond the available supply

# Evaluation Form

Course Sponsor: Smith Seminars (CRCE Sponsor)

Title of Activity: Emergency Preparedness

Title of Module: Emergency Preparedness

Learner's achievement of each objective. Rate each on a scale of 1=low 5=high. (Circle One)

## **Objective 1**

Identify the factors of natural disasters.

Become aware of the components man-made disasters.

Become familiar with bioterrorism factors and biological warfare agents.

Identify pandemic flu infection and prevention factors.

Review the role of respiratory care in the disaster response.

1 2 3 4 5

## **Purpose/Goal of this activity**

Attendee will be aware of the current information and will be able to meet the required continuing education.

Relationship of objectives to overall Purpose/Goal of activity.

1 2 3 4 5

If conflict of interest, off-label use, commercial support, or in-kind support were evident in the education component of this program, were you notified? (Circle One)

N/A — not applicable for any of the above

## Submission Instructions

Print the test, answer the questions, complete the evaluation, and fill out personal information.

Submission Method #1 – Go to [www.smithseminars.com](http://www.smithseminars.com) complete online test and evaluation

Submission Method #2 – Fax to us at 972-759-9791

Submission Method #3 – Smith Seminars, 3016 W. Hwy 114, Paradise, TX 76073 (if you use this method, your certificate will be dated the day it arrives in the office. If you need your certificate earlier, call the office and you will be instructed to supply the answers on the phone)

AARC members please include AARC membership number, if you have one.

This program is AARC-approved for 2 CRCE credits.

The test must be completed and passed prior to December 31 of the year of purchase.

You must complete 70% correctly to receive your certificate of completion.

Certificate delivery will be according to your request below, please allow 36 hours for emailed and faxed copies.

Regular mailed copies will go out the next business day at the latest.
